

Town of Crystal Bay

Hockman Creek Road Work Community Input Hearing

Minutes

April 21th, 2021

- I. Attendance: David Hove, Heidi Hove, Colby Abazs, Carolyn Hauck, Roger Nordstrom, Tim Haselow, George Anderson, Matias Valero, Tim Burns Lake County SWCD, Terra, John Edgar
- II. Meeting Opened at 7pm on Zoom.
- III. Lake County SWCD introduced the proposed project. They highlighted the importance of this project to improve the movement ability of the trout in the Hockman Creek and that this work will be a grant funded improvement to the Finland community.
- IV. Carolyn shared a concern about summer plans having already been made by effected residents and suggests that moving it to summer 2022 would give everyone more time to plan accommodations and adjustments.
- V. Roger shared a question about the length of time needed and how there is no alternate access to the affected section of Breezy Lane. Also knowing in advance so that any building materials needed can be brought over.
- VI. Tim(SWCD) creating a driveable bypass to get to folks homes would be highly cost prohibitive and so there is an interest in figuring out an alternative way for folks to park on the outlet side of the construction and walk, atv... over the construction to one's home.
- VII. Tim I would want a good place to park away from the construction vehicles and then would be happy to walk across to my home.
- VIII. John asks if both sites would be worked on at the same time. Also
- IX. Matias answered that the ideal would be to have them done in sequence but all options are being considered.
- X. Colby the Town Board has been actively involved in the planning so far and intends to continue to work with this project to make sure that residents' needs are met and the project is able to move forward.
- XI. Matias the earliest the closers could start is mid August and if there are delays it is likely the project wouldn't commence until summer 2022.
- XII. David and Heidi expressed a need to have somewhere to store canoes or side by sides so that they could be accessed during the closures.
- XIII. Tim Cell # 218-491-5916
- XIV. Meeting closed at 8 pm.
